

INSTALLATION DISCLAIMER

****READ FIRST BEFORE INSTALLATION****

INSTALL AT YOUR OWN RISK - AVOID USING BODY SHOPS!

Installers are responsible for installation mistakes!

ACERBO GRAPHIX WILL NOT BE HELD LIABLE FOR FAILED INSTALLATIONS!

Thank you for choosing Acerbo Graphix! We produce professional products, so please handle with care! If the package is damaged from shipping please contact us right away. Be careful upon opening the package because sharp object can puncture the vinyl.

SETTLING WILL OCCUR DURING SHIPMENT!

A corner or two might get bent during shipping, or wrinkles on the liner pre-mask. This is NOT A DEFECT in the product and will not hinder installation. Vinyl is resilient and wrinkles will come out during installation.

*Please understand:

Wrinkles may be more prominent once the product is unrolled. Wrinkles will come out after the liner is removed, and you smooth the graphics out during installation. Any lumps or wrinkles in the vinyl will be permanent if squeegeed too firmly and quickly during install.

For more more information please visit installation instructions provided and visit www.acerbos.com.

These vinyl graphics are made of professional vinyl so take time, care and patience to install properly!

PROFESSIONAL INSTALLATION IS AN OPTION!

Our installation instructions are to be used as a guide only. Since every installation is unique, there are other tips and tricks that only a professional vinyl installer may know. Please remember that professional installation is always an option! While there is cost in seeking a professional installer, it may be worth your time and effort to have this vinyl installed by a professional. Avoid using local body shops or automotive dealerships unless a certified installer works for them. We highly recommend seeking an experienced sign shop dealing with automotive vinyl "wraps".

IF YOU DECIDE TO "DO IT YOURSELF"...

INSTALL AT YOUR OWN RISK!

Please read our installation instructions carefully and do plenty of research before you begin. Once you begin installation refunds or partial returns are not accepted because:

- * Wind could catch the vinyl or dirt may get under it. (TWO OR MORE PEOPLE MAY NEED TO HELP WITH LARGER KITS)
- * Too much install fluid is used during installation. (READ THE GENERAL INSTALLATION INSTRUCTIONS CAREFULLY)
- * The backing paper gets wet or humid, making the paper stick to the vinyl. (REMEMBER: PEEL SLOWLY! And DO NOT GET BACKING PAPER WET!)
- * After installation creases and/or bubbles that remain in the vinyl, or you accidentally cut or rip the vinyl. (PATIENCE IS NEEDED!)

WHEN USING A PRO INSTALLER...

* Please keep in mind that professionals can make mistakes and should be liable for the cost to replace this product! Every kit sold is tested, pre-cut, and installed with successful results. Each kit goes through quality control, so flaws prior to shipment are extremely rare. Please examine with the installer for defects, and "test fit" the graphic on the vehicle for proper fitment BEFORE installation begins. If there is a problem found, please email us immediately and provide digital photos of the issue.

* **Remember, once vinyl is ready to install, if an error occurs during the installation, the installer is liable.**

* **If an error occurs in installation, individual pieces may not be available.** Some kits may have individual pieces or entire driver or passenger sides depending on the color and production process.

Contact us at www.acerbographix.com for replacement section requests.

WE PROVIDE PROFESSIONAL VINYL PRODUCTS THAT MUST BE HANDLED WITH CARE!
PLEASE TREAT YOUR INVESTMENT WITH CARE, AND YOU WILL RECEIVE YEARS OF ENJOYMENT FROM YOUR PURCHASE!
